

PROJECTS.....

The Great White Horse Hotel, Ipswich

The Practice acted for Regent Inns Plc, as lead consultants and conservation advisors on this Grade II* listed Hotel. The ground floor was completely remodelled, with two redundant shop units re-introduced into the body of the ground floor public bar. Additional toilet and kitchen facilities were provided to serve the new bar areas. A new hotel entrance and reception area was provided, allowing separate circulation for the hotel and the bar. Accommodation circulation and fire precaution improvements were made on the first and second floors.

Interior view of entrance into Café Bar. New Columns are purpose designed and formed in fibrous plaster.

Detail in Coach Bar

New front elevation showing remodelling of ground floor façade, reinstating the sash windows and providing new entrances to the bar area's.

Tavern street frontage before alterations.

New Hotel entrance and reception extension.
